SUMMARY

Motivated MCA student aspiring for Software Development Engineer (SDE) and MERN-Stack roles. Demonstrated strong problem-solving abilities and hands-on experience architecting scalable web applications. Eager to continuously adapt to new tech stacks, leverage AI-assisted development tools, and solve real-world problems through robust full-stack software engineering.

EDUCATION

Geeta University

Master of Computer Applications (MCA) | **SGPA: 9.33**

Panipat, India
Aug 2025 – May 2027

Dyal Singh College

Bachelor of Computer Applications (BCA) | **CGPA: 7.5**

Karnal, India
Aug 2022 – May 2025

EXPERIENCE

Codec Technologies

MERN Stack Intern

Remote
March 2026 – April 2026

- Designed and implemented complex backend architectures and RESTful APIs for a private enterprise client, ensuring optimal application performance and security.
- Contributed to a major collaborative project by bridging database management (MongoDB) with server-side operations (Node.js/Express.js) to support dynamic client-facing features.

3 Skills

Web Developer Intern

Remote
Dec 2025 – Feb 2026

- Architected and deployed 2 full-stack web applications from the ground up utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Developed responsive, user-friendly front-end interfaces with React while building robust server-side APIs to ensure seamless data flow and integration.
- Managed source code and version control using Git and GitHub, maintaining clean codebases and facilitating smooth, conflict-free deployments.

PROJECTS

SAJSSM Official Website | MERN Stack, GitHub

Media Coordinator & Developer

- Built and maintained the official society website using the MERN stack, managing digital presence and public relations initiatives.
- Enhanced user engagement by 35% through the implementation of responsive UI components and optimized site navigation.
- Automated 5+ manual organizational processes by developing a custom backend workflow, reducing administrative workload by 50%.
- Successfully managed 100% of site deployments and handled 15+ feature updates to support community service operations.

E-Commerce Platform | React.js, Express.js, MongoDB

Full-Stack Developer

- Developed a full-fledged scalable E-Commerce application with dynamic rendering.
- Designed responsive UI components including product listings, interactive menus, and seamless navigation flows.
- Focused on complex backend business logic by designing and integrating robust REST APIs.
- Implemented the Razorpay Payment Gateway API to securely process and ensure smooth customer transactions.

TECHNICAL SKILLS

- **Languages:** C++, Java, JavaScript (ES6+), HTML5, CSS3
- **Web Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Databases:** MongoDB, MySQL
- **DSA & Fundamentals:** Problem Solving Strategy, OOPS, Time Complexity Analysis
- **Tools & Platforms:** GitHub, Git, VS Code, Cursor, Claude, Antigravity, Postman, Vercel, Netlify

ACHIEVEMENTS & CERTIFICATIONS

- **Competitive Programming:** Solved 150+ algorithmic problems on LeetCode and GeeksforGeeks. Recently achieved a rigorous 50-day problem-solving streak on LeetCode.
- **Certifications:** Earned 30+ professional certificates from industry leaders (CISCO, Security Blue Team, Simplilearn), including a comprehensive Node.js certification spanning 10 modules and 58 hands-on tutorials.
- **Mentorship & Event Organization:** Served as a Mentor in HackForge 2.0 (Geeta University's Internal Hackathon), providing technical guidance to 140+ teams and 490+ participants.
- **Leadership:** Appointed as Class Representative (CR) for the MCA batch, acting as the primary liaison between students and university faculty to streamline academic operations.
