SUMMARY

MERN Stack / Full-Stack Developer with hands-on experience across three internships, building responsive front-end interfaces, RESTful APIs, and scalable backend systems using MongoDB, Express.js, React.js, and Node.js. Skilled in authentication (JWT/Bcrypt), caching (Redis), and third-party API integration, following complete SDLC and Agile practices. Currently building Kaizen, a full-stack MERN application powered by the Gemini API.

EDUCATION

Geeta University — Master of Computer Applications (MCA) <i>Panipat, India CGPA: 9.20</i>	Aug 2025 – May 2027
Dyal Singh College — Bachelor of Computer Applications (BCA) <i>Karnal, India CGPA: 7.4</i>	Aug 2022 – May 2025

EXPERIENCE

SVS Techforge Pvt. Ltd. — MERN Stack Intern <i>Delhi, India (On-site) 45 Days</i> - Developed GTECH Code, a MERN-stack online judge platform integrating the Judge0 API for real-time, multi-language code execution across 5+ languages. - Implemented JWT/Bcrypt authentication with Redis-backed caching, reducing average API response time by ~40% on high-traffic endpoints.	Jun 2026 – Jul 2026
Codec Technologies — MERN Stack Intern <i>Remote</i> - Designed backend architectures and RESTful APIs for a private enterprise client following Agile/SDLC practices, improving application performance by ~30%. - Integrated MongoDB data models with Node.js/Express.js services, powering 10+ client-facing features on a live collaborative project.	Mar 2026 – Apr 2026
3 Skills Pvt. Ltd. — Web Developer Intern <i>Remote</i> - Built 2 full-stack MERN applications end-to-end, from responsive front-end to server-side APIs, improving page load speed by ~25%. - Collaborated with a 4-member team using Git/GitHub version control across the full SDLC cycle.	Dec 2025 – Feb 2026

PROJECTS

Kaizen — AI-Powered Resume Optimizer MERN, Gemini API, Generative AI <i>github.com/PranshulCSE/kaizen</i> - Building a full-stack MERN application that analyzes a resume against a target job description using the Gemini API and generates targeted content suggestions. - Designing the scoring engine to target 80%+ improvement in ATS compatibility through keyword and structure optimization.	In Progress
GTECH Code MERN Stack, Redis, JWT, Judge0 API Built a LeetCode-style competitive coding platform with real-time, multi-language code execution and Redis-backed session caching, speeding up submissions by ~35%.	
SAJSSM Official Website MERN Stack Built and maintained a full-stack society website with a responsive UI, automating 5+ manual organizational processes and shipping 15+ feature updates.	
E-Commerce Platform React.js, Express.js, MongoDB, Razorpay Built a scalable e-commerce application with REST APIs and integrated Razorpay payment gateway, supporting 100+ test transactions with zero failures.	

TECHNICAL SKILLS

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST APIs, JWT, Bcrypt, Responsive Web Design
Languages: JavaScript (ES6+), TypeScript, C++, Java, HTML5, CSS3
Databases & Caching: MongoDB, MySQL, Redis
AI / Generative AI: Gemini API, Generative AI Integration, Prompt Engineering
AI Dev Tools: Claude, Cursor — AI-assisted code generation, debugging, and output verification
Concepts: Data Structures & Algorithms, OOPS, System Design, SDLC, Agile Methodology
Tools & Platforms: Git, GitHub, VS Code, Postman, AWS EC2, Docker, Vercel, Netlify

ACHIEVEMENTS & CERTIFICATIONS

- Solved 325+ algorithmic problems on LeetCode and GeeksforGeeks; achieved a 100-day problem-solving streak on LeetCode.
- Earned 30+ professional certifications from Cisco, Security Blue Team, and Simplilearn, including a Node.js certification.
- Mentored 140+ teams (490+ participants) at Hack Forge 2.0, Geeta University's internal hackathon.
